

PROJECT DATA

APPLICATION TYPE	Residential driveway
PARTICIPANTS	
OWNER	George Cairo
ENGINEER	George Cairo Engineering, Inc.
CONCRETE CONTRACTOR	N/A
READY-MIX CONCRETE SUPPLIER	AZ Materials
FIBER SUPPLIER	FiberForce
FIBER TYPE, LENGTH, AND DOSAGE	FiberForce 1000 HP™ 2 inches 3 lbs./pcy
DETAILS	
YARDS	8 yards
THICKNESS	4 inches thick 3 000 psi
PROJECT DATE	March 2017

Mr. Cairo tested our FiberForce 1000 HP™ macro fiber on his personal driveway with colored and stamped concrete to alleviate cracking and reinforcing in a 4 inch thick 3,000 psi concrete pavement.

"FiberForce 1000 HP fiber finished smoothly with no evidence of fibers on the surface. The joints were sawcut the day after placement. Even after one Arizona summer, no cracks have formed in any of the placement areas."

- Mr. George Cairo, President of George Cairo Engineering, Inc.
