

PROJECT DATA

APPLICATION TYPE	Bridge deck
OWNER	State of California DOT (Caltrans)
ARCHITECT	Caltrans
ENGINEER	Caltrans
CONCRETE CONTRACTOR	Q&D Construction
READY-MIX CONCRETE SUPPLIER	White Cap Ready Mix
FIBER SUPPLIER	FiberForce
FIBER TYPE & DOSAGE	ProMax™ 4 lbs per cubic yard
VOLUME	700 cubic yards
DIMENSIONS	2,000 feet long
PROJECT DATE	September 2018

Caltrans has included 4 pounds of our macro/micro mix, ProMax to minimize cracking on the bridge deck. Both the readymix supplier and contractor were extremely happy with the way the ProMax Blend mixed and placed. This project is the second time Caltrans has used stainless steel #11 rebar, which is used in place of traditional rebar to avoid corrosion from de-icing salts.
